January 12, 2010
Tuesday, 4:00 P.M. - 5:00 P.M.
505 Parnassus Avenue - 12th Floor Room 1296

The COAG Trial - Using Pharmacogenetic Testing to Improve Warfarin Dosing

Margaret Fang, MD, MPH
Assistant Clinical Professor, Division of Hospital Medicine
University of California, San Francisco

Learning Objectives:
1. To know the primary objectives of this ongoing randomized clinical trial being conducted at UCSF.

Atrial Fibrillation for the Hospitalist

Gregory M Marcus, MD, MAS, FACC
Assistant Professor of Medicine
Division of Cardiology, Electrophysiology Section
University of California, San Francisco

Learning Objectives:
1. To review the appropriate work-up for a patient with a new diagnosis of atrial fibrillation.
2. To review the optimal anticoagulation strategies for different atrial fibrillation patients.
3. To review indications for ablation.

Accreditation
The University of California, San Francisco School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

UCSF designates this educational activity for a maximum of 1 credit toward the AMA PRA Category 1 Credit(s). Physicians should only claim credits commensurate with their participation in the activity.

Faculty Relationship Disclosure
Dr. Fang has disclosed that she (or spouse/partner) does not have a personal financial relationship in the last 12 months with the manufacturer of products or services discussed in this presentation. Dr. Marcus is a grant/research support recipient of Sanofi-Aventis and Astellas. Conflict of interest has been resolved.

Commercial Support Disclosure
No commercial support was received for these Grand Rounds.

You must sign in to qualify for CME credit.
