Clinical Update - Recognizing Early Warning Signs of C. Difficile Infection

Anna Abramson, MD
Clinical Instructor, Division of Hospital Medicine
University of California, San Francisco

Learning Objectives:
1. To recognize predisposing factors for severe C. difficile infection
2. Markers of severe infection
3. Treatment and rescue modalities

The UCSF Surgery Hospitalist Program and the Future of General Surgery - a Year 2 update

John Maa, MD
Assistant Professor of Surgery
Department of Surgery, University of California, San Francisco

Learning Objectives:
1) To understand the factors contributing to the "impending disappearance of the general surgeon"
2) To identify new potential revenue streams in the delivery of emergency surgical care
3) To define new clinical care models which promote the balance between a) medical student and resident education and b) patient safety
4) To characterize clinical features predictive of strangulated small bowel obstruction and intestinal ischemia
